

POWERPLAY PM1

Personal In-Ear Monitor Belt-Pack

- In-ear monitor belt-pack for personal monitor applications
- High quality volume control
- XLR input with locking mechanism
- 3.5 mm mini jack headphones connector
- Convenient belt-pack clip included
- "Built-like-a-tank", impact-resistant metal chassis
- 3-Year Warranty Program*
- Designed and engineered in Germany

Whether you're a keyboardist, drummer, or any other musician whose performance keeps them anchored in one spot, the PM1 was designed specifically for you. A convenient hard-wired personal in-ear control center, the PM1's belt pack puts monitor control right at your fingertips, plus it's lightweight, ultra-easy to use – and it doesn't require a power source!

Volume Control

The PM1 features an extremely high-quality volume control for dialing in the perfect level every time. Designed for long life and super-smooth performance, this detented control stays where you put it.

Personal In-Ear Monitor Belt-Pack

Locking XLR Input

Because your monitor is crucial to your performance, PM1's XLR input connector accepts standard mic cables and features a locking mechanism to prevent accidental disconnects. Just press the tab next to the bottom-mounted connector to release the cable at the end of the gig. It is important to note that PM1's XLR input is not designed to accept balanced line signals taken directly from your mixer, as an amplified source is required. For connecting a stereo source, such as your headphone amplifier or mixer's headphone output, you should use a TRS-to-XLR (male to male) cable.

3.5 mm Phones Jack

You can use your favorite headphones, earbuds or custom-molded professional In-Ear Monitors (IEMs) with the PM1, thanks to the top-mounted, standard 3.5 mm (1/8") stereo output jack.

Handy Belt Clip

When you do need to move around, say to change your amp or stomp settings, PM1's built-in belt clip will always keep it close at hand. Just slip the PM1 onto your waistband or belt and let the good times roll!
