WorkForce Pro WF-C869RDTWF

Save on energy and cut waste with this reliable 4-in-1 business MFP, featuring predictable printing costs and low user intervention.

Print 84,000 pages[1] without any supply changes with this exemplary business printer, using Epson's super-high-yield Replaceable Ink Pack System (RIPS). Cut intervention downtime and lessen your impact on the environment with a reduction of up to 95 percent on energy[1] and 99 percent on waste[1]. It also uses PrecisionCore technology, renowned for its speed, quality, reliability and efficiency.

Print 84,000 pages uninterrupted
Thanks to super-high-yield ink supply units, you can print up to 84,000 pages without replacing the ink[1], that's up to 4.5 times more prints than colour lasers and copiers[2]. It cuts intervention time by up to 98 percent[2] as replacement inks are few and far between.

The best choice
It uses Epson's most advanced printhead designed for business, PrecisionCore. But that's not all; compared to competitive colour lasers it uses up to 95 percent less power[2] thanks to its no-heat technology. There really is no contest; it also beats lasers and copiers with an up to 99 percent reduction in waste and it's up to 23% quieter than lasers and laser copiers[2].

Be more productive
Its first page out time is up to three and a half times faster than competitive products[2]. Wait times and the distance to collect print jobs are minimised too as it's a workgroup printer.

Built for business
Take control with a range of software and tools that provide secure print options, efficient scanning and help manage devices remotely. NFC and wireless connectivity also supports printing from mobile devices. And with its smartphone inspired user interface and touchscreen, it's intuitive to operate. Epson Open Platform and our work with ISVs add extra solutions, such as PaperCut print management software. Designed for busy environments, its paper tray and other features are built to be robust and durable.
